

Model DeCon-1 Decontamination Kit

Ludlum Measurements, Inc.

Introduction

The Ludlum Decontamination Kit contains the essential equipment, labeling materials, protective clothing, decontamination solvents and cleaning supplies, needed to deal with a basic radioactive spill or routine decontamination problem that may be encountered in the Nuclear Medicine Department or radiologic research laboratory. The 30 gallon drum serves both as a container for the kit components as well as a waste transfer and temporary storage (decay) vessel.
