

Job Title: Senior Data Analyst

Location: Ludlum Measurements, Inc., Sweetwater, TX

Salary: Salary dependent on experience

Job Type: Full-time

About the Company:

We are a leading global manufacturing company that specializes in the production of high-quality radiation detection instrumentation and technologies for consumers. We are seeking a skilled Senior Data Analyst to join our team and help us continue to grow and improve our operations.

Job Description:

The Senior Data Analyst collaborates with subsidiaries globally to provide overall direction and management for the gathering, compiling, analyzing, interpreting, and reporting of data.

Essential Duties and Responsibilities:

- Develop, maintain, and update databases for complex business applications.
- Respond to requests for information and prepare ad-hoc reports and query analyses in desired formats.
- Analyze and interpret data to improve key performance indicators and achieve strategic goals.
- Drive user adoption of industry best practices and internal SOP's for new technologies.
- Work with leadership team to develop and perform needed assessments to identify systemic problems and eliminate root causes.

Qualifications:

- Education - bachelor's degree in computer science, information systems, or related field
- Experience – Minimum of three years of related experience in data collection and analysis and using data management information systems
- Proficient with Microsoft Excel, Microsoft Access, SQL, and Reporting Tools
- Strong analytical skills and attention to detail
- Experience with ERP systems, preferably in a manufacturing environment
- Familiarity with business process modeling, workflow design, and process improvement methodologies
- Ability to communicate technical information to non-technical stakeholders
- Ability to multitask and work independently as well as part of a team
- An equivalent combination of education and experience may be considered

If you are a self-motivated, analytical problem solver with a passion for driving business results through technology solutions, we encourage you to apply for this exciting opportunity. We offer a competitive salary and benefits package, opportunities for professional growth, and a supportive, collaborative work environment.
